A Long Term Investment Plan (LTIP) describes an agency’s or sector’s investment journey over 10 years subject to their long term vision and goals. It shows what will be invested in and how investment will occur in order to support the delivery of an agency’s or sector’s strategy.

Four Year Plan (4YP)

Designed to provide a medium-term perspective of agencies in the context of their longer-term vision and set out how they will get there.

Agency ICT Strategy

An agency’s ICT strategy supports the agency’s strategic direction by planning and implementing information and technology related initiatives linked to business outcomes.

Investment Cases

A business case captures the reasoning for initiating a project or undertaking on the basis of its expected benefit. Better Business Cases (BBC) is recognised by the NZ Government as a systematic way to prepare business cases for programmes or projects that will provide information required to invest with confidence.

Other agency, sector and system strategies
